PETITION UNDER 37 C.F.R. §1.47(a)

The inventors' declaration filed with this petition is signed by three of the four named inventors. One of the inventors, Robert Hall, has refused to sign the declaration because he no longer works for the company who owns the application. Pursuant to his employment contract, Mr. Hall has an obligation to sign these papers, however, as set forth in the accompanying Declaration of Thor Halseth, Mr. Hall has refused to sign the papers. Accordingly, Applicants request that the Commissioner accept the application without the signature of Mr. Hall.

The proper fee for this petition is enclosed, as reflected on the accompanying fee transmittal sheet.

6. All statements made herein of my own knowledge are true and all statements made on information and belief are believed to be true, and these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent resulting therefrom.
